

Product data sheet

ZChek-WA9

For Visible Magnetic Particle Inspection

Description

ZChek WA9 is a water conditioner used as wetting agent in magnetic particle inspection when water is used as a vehicle.

WA9 has wetting agents, corrosion inhibitors and antifoaming agents which enhances in wet method magnetic particle testing.

Features / Benefits:

- White granular powder- does not form cake on storage
- Offers rust inhibitor properties

Approvals / Specification compliance:

- ASME B & PV Code, Sec V
- ASTM E 1444/E 144M
- ASTM E 709
- BS EN ISO-9934-2

Application:

For wet method magnetic particle inspection when water is used as medium.

Excellence Delivered

Speciality Chemicals & Solutions

Typical Properties:

Form	White granular powder
pH	9

Direction for use:

- Use at 10 grams per liter of water .

Packaging – Available in 1 kg container.

Disclaimer: We have taken best care to ensure that the information provided in this data sheet is accurate. Our product is guaranteed to conform to the specifications provided. We make no other warranty; hence the liability is limited to replacement of product only.
