

AC Electromagnetic Yoke

ZC-9

Lightweight, Heavy Duty & Durable

AC electromagnetic yoke is ergonomically designed to improve productivity and reduce operator arm and wrist fatigue. The yoke generates a strong AC magnetic field for the detection of surface indications during magnetic particle Inspection.

Lightweight with an ergonomic grip and trigger, the ZC-9 is designed for the rugged demands of field inspection. Featuring a rugged cord and an isolated trigger switch; the ZC-9 is easily serviceable.

Benifits

Increase inspector productivity and reduce physical fatigue

Less arm strain, wrist fatigue and physical stress help operators get more done due to the lightweight and ergonomic design. Easily position the yoke in any direction with lightweight, heavy-duty and powerful electronics components.

Keep tools in service with a design that's built to last

Cords and triggers can be easily replaced, so work does not stop, and tools aren't scrapped due to accidental damage.
